Hydrocarbon Processing©

ANNUAL EDITORIAL INDEX 1998

VOLUME 77, Nos. 1–12

A

ABSORPTION

FCCU main fractionator revamp for CARB gasoline production ..... Feb. 44
Gas Processes '98 ..... Apr. 85
Control loading emissions ..... May 61
High-capacity distillation ..... Aug. 53
Sensitivity analysis is key to successful DC_5 simulation ..... Oct. 124

ACID GASES

Gas Processes '98 ..... Apr. 85
Reduce acid usage on alkylation unit .. Jul. 101
Remove heat stable salts for better amine plant performance .... Aug. 63

ACIDS/SALTS

Improve bisphenol-A quality ..... Mar. 100-G
Assess crude oil corrosivity ..... Oct. 97

ALCOHOLS

Gas Processes '98 ..... Apr. 85

ALDEHYDES

Improve DMT production ..... Jun. 61

ALKYLATION

Reduce acid usage on alkylation unit .. Jul. 101

AMINES

Gas Processes '98 ..... Apr. 85
Oxygen's role in alkanolamine degradation ..... Jul. 109
Remove heat stable salts for better amine plant performance ..... Aug. 63

AROMATICS

What are Western Europe's petrochemical feedstock options? ..... Feb. 59
China prepares for the 21st century .. Mar. 51
Improve BTX processing economics .. Mar. 69
Increase productivity with novel reactor design ..... Mar. 93
Improve bisphenol-A quality ..... Mar. 100-G
Design 'clean' chemical processes .... Apr. 79
Gas Processes '98 ..... Apr. 85
Improve DMT production ..... Jun. 61
Optimize styrene distillation ..... Dec. 85

B

BLENDING

RFG: the challenge to conventional blending technology ..... Jun. 101
Distinguish between scheduling and planning models ..... Jul. 93

BOILING POINT

Gas Processes '98 ..... Apr. 85

C

CATALYSTS

Increase productivity with novel reactor design ..... Mar. 93
Gas Processes '98 ..... Apr. 85
Control cyanides at source ..... Jul. 85

CATALYTIC CRACKING

FCCU main fractionator revamp for CARB gasoline production ..... Feb. 44
Maximize propylene production ..... Mar. 61
Improve FCCU refractory-lined piping design ..... Jul. 69
Control cyanides at source ..... Jul. 85
Benchmarking FCC units ..... Dec. 91

CAUSTIC

Remove heat stable salts for better amine plant performance ..... Aug. 63

CHLORINATION

Gas Processes '98 ..... Apr. 85

COKING

Use hydrocyclones to improve delayed coker operations ..... Mar. 111
Delayed coking in the CIS ..... Oct. 132-B

COMPRESSORS

Field analysis of multisection compressors ..... Jan. 55

COMPUTERS

Measuring and managing process equipment effectiveness ..... Jan. 48
Integrate CEMS with DCS ..... Jan. 85
Dynamic simulation for IGCC process and control design ..... Jan. 107
Why a simulation system doesn't match the plant ..... Mar. 102
Design 'clean' chemical processes .... Apr. 79
System integration improves refining ..... May 73
Online optimization: what have we learned? ..... Jun. 55
Successful closed-loop olefins plant optimization ..... Jun. 83
RFG: the challenge to conventional blending technology ..... Jun. 101
Online soft analyzers benefit refining ..... Jun. 105
Make a program to aid gas turbine selection ..... Jul. 59
Multivariable control increases coke unit, refinery throughput ..... Jul. 77
Distinguish between scheduling and planning models ..... Jul. 93
Make computerized maintenance management systems pay off ..... Jul. 129
Understand object-oriented technology ..... Aug. 45
LP integrates economics into dynamic matrix control ..... Sep. 57
Understand operation information systems ..... Sep. 67
Real-time optimization: an alternative approach ..... Sep. 81
Applying neural networks ..... Sep. 91
Real-time economic control ..... Sep. 99
Tips for control engineers ..... Sep. 113
Use optical remote sensing techniques to monitor facility releases ..... Sep. 125
Inferential property predictors using neural networks ..... Oct. 107
Sensitivity analysis is key to successful DC_5 simulation ..... Oct. 124
Neural networks help optimize solvent extraction ..... Nov. 45
Expert systems aid plant operations managers ..... Nov. 115
Prevent overpressure failures on heat exchangers ..... Nov. 123
Document management throughout plant construction ..... Dec. 55
Strategy for a successful control system renovation ..... Dec. 65
Online flash point calculation improves crude unit control ..... Dec. 81
Benchmarking FCC units ..... Dec. 91

CONSTRUCTION

International engineering alliances: risks and rewards ..... Jan. 90-C
HPI Construction Boxscore Update, February ..... Feb. 87
China's petrochemical industry: optimistic and expanding ..... Mar. 47
Modular project constructed in Southeast Asia ..... Mar. 55
Currency turmoil strikes Asia-Pacific's E&C firms ..... Mar. 100-K
E/Cs look upstream ..... Mar. 139
HPI Construction Boxscore update, June ..... Jun. 131
Delayed coking in the CIS ..... Oct. 132-B
Project practices for success ..... Dec. 43
Document management throughout plant construction ..... Dec. 55
Consider a new contractor selection process for a shutdown alliance .... Dec. 61

Strategy for a successful control system renovation ..... Dec. 65

CONTRACTS/AGREEMENTS

International engineering alliances: risks and rewards ..... Jan. 90-C
Write an offer too good to refuse ..... Nov. 147
Consider a new contractor selection process for a shutdown alliance .... Dec. 61

CORROSION

Gas Processes '98 ..... Apr. 85
Control cyanides at source ..... Jul. 85
Oxygen's role in alkanolamine degradation ..... Jul. 109
Remove heat stable salts for better amine plant performance ..... Aug. 63

COSTS

International engineering alliances: risks and rewards ..... Jan. 90-C
National strategies and multinational business ..... Feb. 84-C
Call for Columbo ..... Feb. 129
China's petrochemical industry: optimistic and expanding ..... Mar. 47
China prepares for the 21st century ... Mar. 51
Maximize propylene production ..... Mar. 61
Improve BTX processing economics ... Mar. 69
Reduce methanol formation in your hydrogen plant ..... Mar. 100-C
Improve bisphenol-A quality ..... Mar. 100-G
Currency turmoil strikes Asia-Pacific's E&C firms ..... Mar. 100-K
Retrofit your ethylene unit: the Chevron experience ..... Mar. 100-O
Gas Processes '98 ..... Apr. 85
How accurate is your receiving metering system? ..... May 83
Improve DMT production ..... Jun. 61
Minimize wastewater contamination ..... Jun. 91
Gasoline, the environment and economics ..... Jun. 120-C
Optimization and operational excellence ..... Jun. 167
Distinguish between scheduling and planning models ..... Jul. 93
Reduce acid usage on alkylation unit ... Jul. 101
Manage crude oil quality for refining profitability ..... Sep. 133
Transforming a gas processing plant in Russia ..... Sep. 150-C
How much safety is enough? ..... Oct. 50
Installing training system provides pattern for global expansion ..... Nov. 154-C
Project practices for success ..... Dec. 43
Optimize styrene distillation ..... Dec. 85
Benchmarking FCC units ..... Dec. 91
Multi-skilling and cross training: how to find the right balance ..... Dec. 100-A

CRACKING/CHEMICAL

Benchmarking FCC units ..... Dec. 91

CRUDE OILS

Manage crude oil quality for refining profitability ..... Sep. 133

CRYSTALLIZATION

Improve bisphenol-A quality ..... Mar. 100-G

D

DESULFURIZATION

Gas Processes '98 ..... Apr. 85

DISTILLATION

FCCU main fractionator revamp for CARB gasoline production ..... Feb. 44
Revamping crude units ..... Feb. 51
Improve BTX processing economics ... Mar. 69
Retrofit your ethylene unit: the Chevron experience ..... Mar. 100-O
Improve DMT production ..... Jun. 61
High-capacity distillation ..... Aug. 53
Assess crude oil corrosivity ..... Oct. 97
Sensitivity analysis is key to successful DC_5 simulation ..... Oct. 124
Optimize styrene distillation ..... Dec. 85

DRYING

Gas Processes '98 ..... Apr. 85

E

ENVIRONMENT

Improve emission monitoring ..... Jan. 79
Integrate CEMS with DCS ..... Jan. 85
Can optical remote sensing techniques detect air contaminants? ..... Jan. 91
Modernization projects help refinery meet clean fuel needs ..... Feb. 67
Mitigate NO_x by steam injection ..... Feb. 79
Reduce methanol formation in your hydrogen plant ..... Mar. 100-C
Design 'clean' chemical processes .... Apr. 79
Gas Processes '98 ..... Apr. 85
Global warming: science or politics? Part 1 ..... Apr. 143
Five steps to street smart environmental management ..... Apr. 152-C
Control loading emissions ..... May 61
Burn wastes cost-effectively ..... May 119
Global warming: science or politics? Part 2 ..... May 127
Minimize wastewater contamination ..... Jun. 91
Control cyanides at source ..... Jul. 85
Special Report: Environmental Processes '98 ..... Aug. 71
Calculate water in combustion air ..... Sep. 119
Use optical remote sensing techniques to monitor facility releases ..... Sep. 125
Use dry-gas seals on cracked-gas applications ..... Oct. 57

ESTERS

Improve DMT production ..... Jun. 61

ETHERS

Maximize propylene production ..... Mar. 61
Gas Processes '98 ..... Apr. 85
Gasoline, the environment and economics ..... Jun. 120-C

F

FUELS

China's petrochemical industry: optimistic and expanding ..... Mar. 47
China prepares for the 21st century ... Mar. 51

G

GLYCOLS

Gas Processes '98 ..... Apr. 85

H

HEAT TRANSFER

Boiler circulation calculations ..... Jan. 101
FCCU main fractionator revamp for CARB gasoline production ..... Feb. 44
Revamping crude units ..... Feb. 51
Mitigate NO_x by steam injection ..... Feb. 79
Optimize gas-phase polyethylene ..... Mar. 85
Increase productivity with novel reactor design ..... Mar. 93
Retrofit your ethylene unit: the Chevron experience ..... Mar. 100-O
Gas Processes '98 ..... Apr. 85
Improve urea reactor efficiency ..... Apr. 137
Emerging microbial control issues in cooling water systems ..... May 91
Heat-flux imbalances in fired heaters cause operating problems ... May 103
Thermal insulation and pipe stress .... May 111
Burn wastes cost-effectively ..... May 119
Revamp fired heaters to increase capacity ..... Jun. 67
Assess crude oil corrosivity ..... Oct. 97
Prevent overpressure failures on heat exchangers ..... Nov. 123
Optimize styrene distillation ..... Dec. 85

HYDROGEN

Dynamic simulation for IGCC process and control design ..... Jan. 107
Gas Processes '98 ..... Apr. 85
Hydrogen and utility supply optimization ..... Sep. 143

HYDROTREATING

Gas Processes '98 ..... Apr. 85

I

INSTRUMENTATION

Integrate CEMS with DCS ..... Jan. 85
Can optical remote sensing techniques detect air contaminants? ..... Jan. 91
Modernization projects help refinery meet clean fuel needs ..... Feb. 67
Why a simulation system doesn't match the plant ..... Mar. 102
Emerging technologies and six sigma ..... Apr. 55
Improve automatic tank gauging of floating roof tanks ..... May 52
System integration improves refining ..... May 73
How accurate is your receiving metering system? ..... May 83
Heat-flux imbalances in fired heaters cause operating problems ... May 103
Select the right high-temperature wire and cable ..... May 114
Burn wastes cost-effectively ..... May 119
Online optimization: what have we learned? ..... Jun. 55
Successful closed-loop olefins plant optimization ..... Jun. 83
Minimize wastewater contamination ... Jun. 91
Online soft analyzers benefit refining ..... Jun. 105
Optimization and operational excellence ..... Jun. 167
Improve valve and pump sizing ..... Jul. 53
Multivariable control increases coke unit, refinery throughput ..... Jul. 77
Control cyanides at source ..... Jul. 85
Reduce acid usage on alkylation unit .. Jul. 101
Understand object-oriented technology ..... Aug. 45
LP integrates economics into dynamic matrix control ..... Sep. 57
Understand operation information systems ..... Sep. 67
Real-time optimization: an alternative approach ..... Sep. 81
Applying neural networks ..... Sep. 91
Real-time economic control ..... Sep. 99
Tips for control engineers ..... Sep. 113
Use optical remote sensing techniques to monitor facility releases ..... Sep. 125
Industry initiative addresses 'abnormal events' ..... Oct. 71
Reduce risk with performance-based safety standards ..... Oct. 91
Inferential property predictors using neural networks ..... Oct. 107
Neural networks help optimize solvent extraction ..... Nov. 45
Expert systms aid plant operations managers ..... Nov. 115
Prevent overpressure failures on heat exchangers ..... Nov. 123
Strategy for a successful control system renovation ..... Dec. 65
Protect vessels from overpressure .... Dec. 77
Online flash point calculation improves crude unit control ..... Dec. 81
Multi-skilling and cross training: how to find the right balance ..... Dec. 100-A

ISOMERIZATION

Gas Processes '98 ..... Apr. 85

K

KETONES

Improve DMT production ..... Jun. 61

L

LEGISLATION

Improve emission monitoring ..... Jan. 79
Mitigate NO_x by steam injection ..... Feb. 79
National strategies and multinational business ..... Feb. 84-C
Reduce methanol formation in your hydrogen plant ..... Mar. 100-C
Design 'clean' chemical processes .... Apr. 79
Global warming: science or politics? Part 1 ..... Apr. 143
Global warming: science or politics? Part 2 ..... May 127
Control cyanides at source ..... Jul. 85
Straight facts on deregulation ..... Jul. 116-C

LIQUEFIED NATURAL GAS (LNG)

What are Western Europe's petrochemical feedstock options? ... Feb. 59
Gas Processes '98 ..... Apr. 85

LIQUEFIED PETROLEUM GAS (LPG)

What are Western Europe's petrochemical feedstock options? ... Feb. 59
Gas Processes '98 ..... Apr. 85

LOSS PREVENTION

Improve emission monitoring ..... Jan. 79
Integrate CEMS with DCS ..... Jan. 85
Can optical remote sensing techniques detect air contaminants? ..... Jan. 91
Mitigate NO_x by steam injection ..... Feb. 79
Call for Columbo ..... Feb. 129
Design 'clean' chemical processes .... Apr. 79
Five steps to street smart environmental management ..... Apr. 152-C
Control loading emissions ..... May 61
Improve tank inspections ..... May 79
How accurate is your receiving metering system? ..... May 83
Thermal insulation and pipe stress .... May 111
Burn wastes cost-effectively ..... May 119
Minimize wastewater contamination .. Jun. 91
Control cyanides at source ..... Jul. 85
Reduce acid usage on alkylation unit .. Jul. 101
Calculate water in combustion air ..... Sep. 119
Use optical remote sensing techniques to monitor facility releases ..... Sep. 125
How much safety is enough? ..... Oct. 50
Use dry-gas seals on cracked-gas applications ..... Oct. 57
Do your flame arrestors provide adequate protection? ..... Oct. 63
Industry initiative addresses 'abnormal events' ..... Oct. 71
Design a safe, in-compliance relief valve ..... Oct. 83
Reduce risk with performance-based safety standards ..... Oct. 91
Assess crude oil corrosivity ..... Oct. 97
Revise aboveground storage tank inspections ..... Oct. 105
Prevent overpressure failures on heat exchangers ..... Nov. 123
Improve PRV audits ..... Nov. 133
Protect vessels from overpressure .... Dec. 77

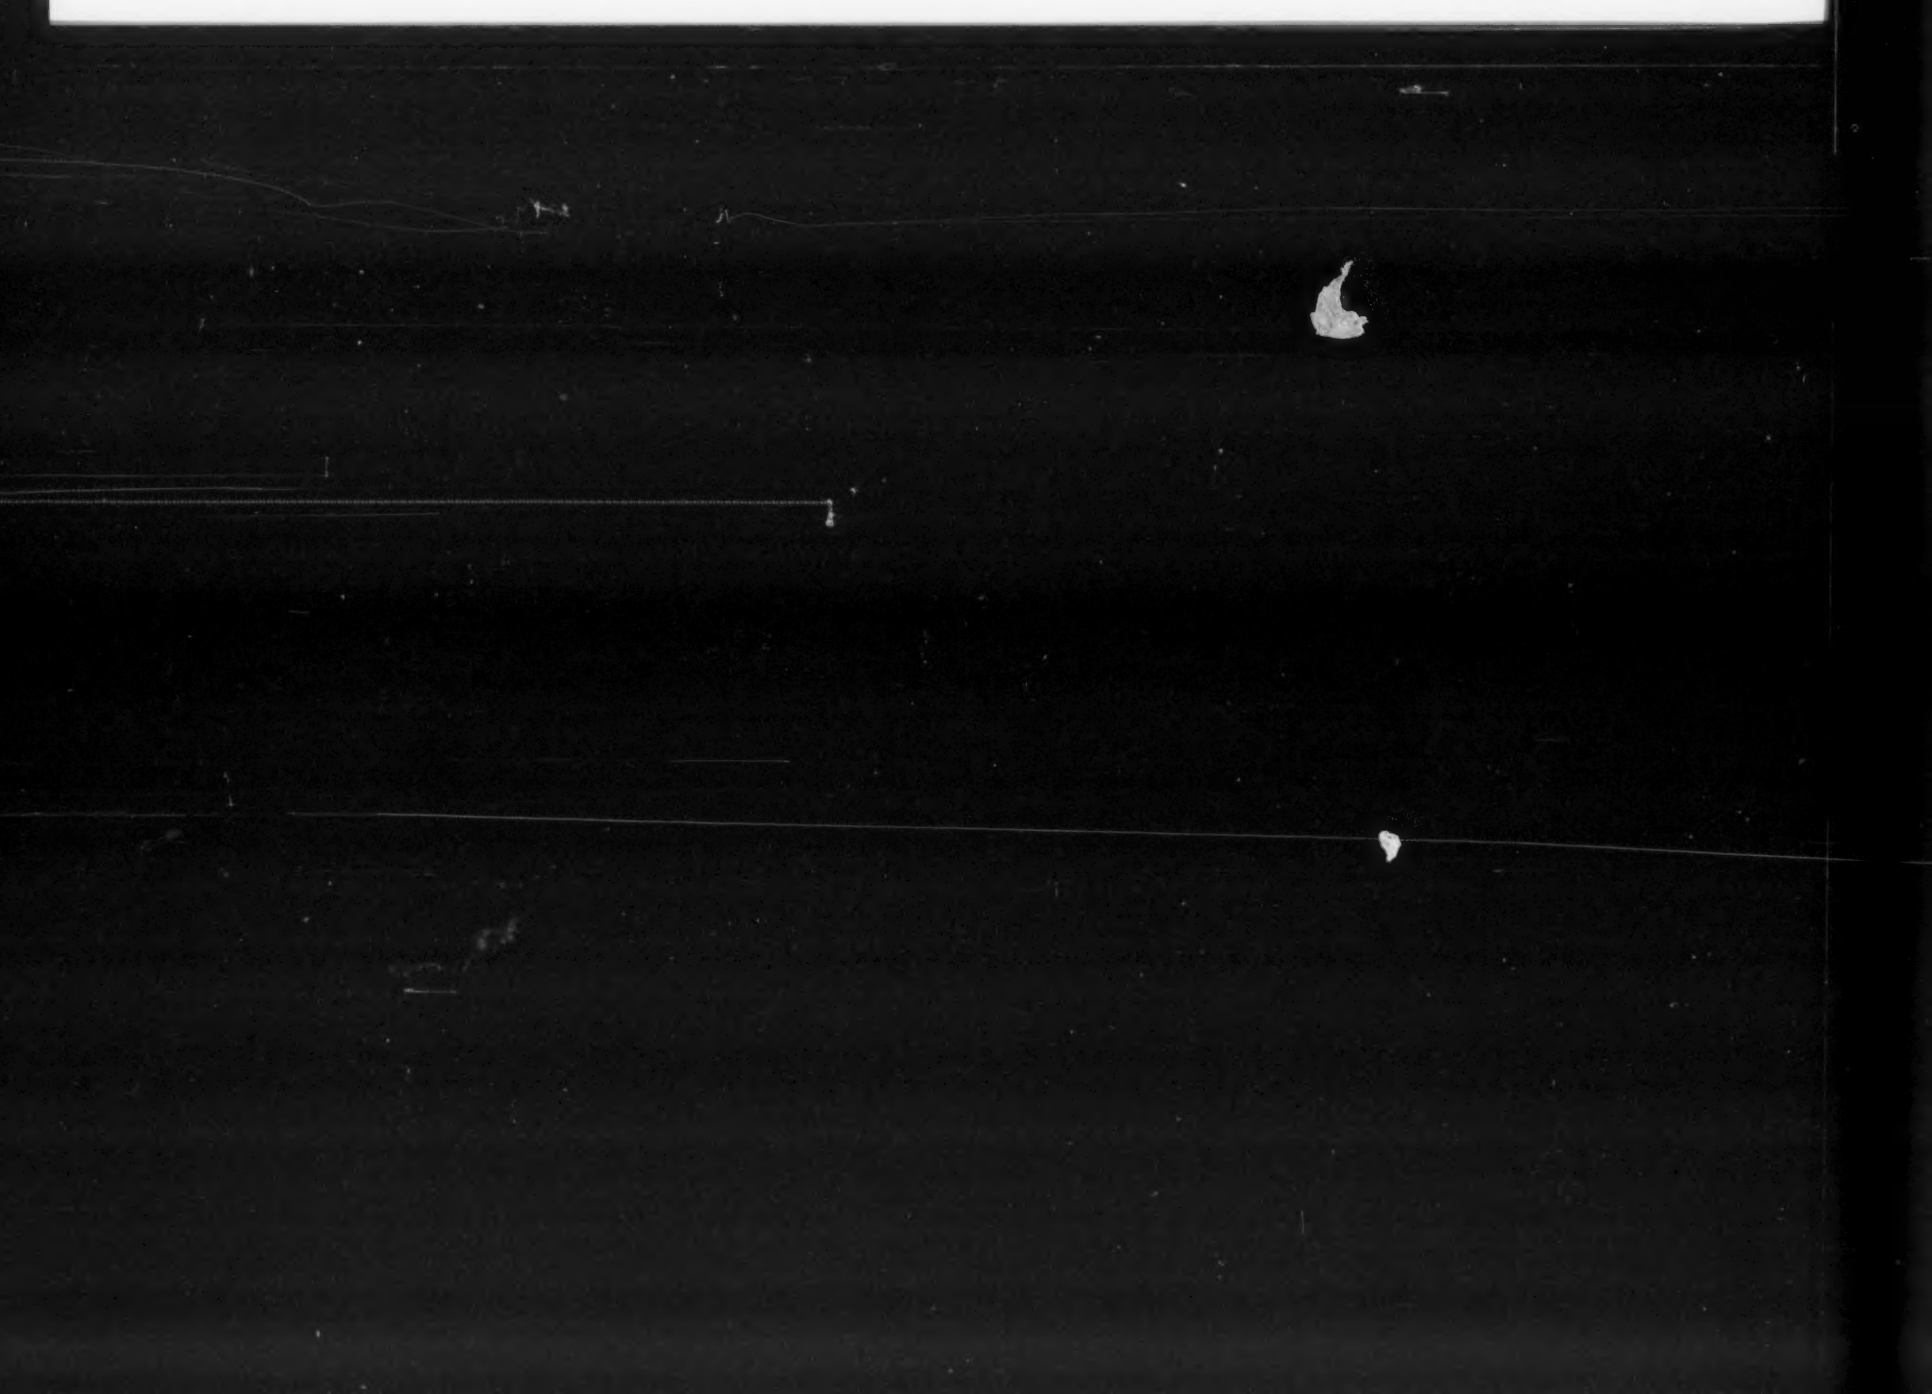
M

MAINTENANCE

Measuring and managing process equipment effectiveness ..... Jan. 48
Field analysis of multisection compressors ..... Jan. 55
When to buy spare parts ..... Jan. 61
Optimize predictive maintenance for rotating and electrical equipment .. Jan. 65
Spend less time on alignment ..... Jan. 75
Improve pump load evaluation ..... Apr. 65
Improve automatic tank gauging of floating roof tanks ..... May 52
Revamp fired heaters to increase capacity ..... Jun. 67
Make computerized maintenance management systems pay off ..... Jul. 129
Influence of piping vibration on pump shaft cracks ..... Aug. 48
Design a safe, in-compliance relief valve ..... Oct. 83
Revise aboveground storage tank inspections ..... Oct. 105
Consider a new contractor selection process for a shutdown alliance .... Dec. 61

MANAGEMENT

Optimize predictive maintenance for rotating and electrical equipment ... Jan. 65
International engineering alliances: risks and rewards ..... Jan. 90-C
Managing for growth: a paradigm for the new mellennium ..... Jan. 139



National strategies and multinational business ..... Feb. 84-C
Call for Columbo ..... Feb. 129
Currency turmoil strikes Asia-Pacific's E&C firms ..... Mar. 100-K
E/Cs look upstream ..... Mar. 139
Emerging technologies and six sigma ..... Apr. 55
Global warming: science or politics? Part 1 ..... Apr. 143
Five steps to street smart environmental management ..... Apr. 152-C
Command and control: a learning disability ..... May 118-C
Global warming: science or politics? Part 2 ..... May 127
Online optimization: what have we learned? ..... Jun. 55
Gasoline, the environment and economics ..... Jun. 120-C
Optimization and operational excellence ..... Jun. 167
Straight facts on deregulation ..... Jul. 116-C
Make computerized maintenance management systems pay off ..... Jul. 129
The changing hydrocarbon processing industry ..... Aug. 68-C
Manager's guide to competency testing and certification ..... Aug. 121
Manage crude oil quality for refining profitability ..... Sep. 133
Transforming a gas processing plant in Russia ..... Sep. 150-C
Do you really need a patent search? ... Sep. 163
Industry initiative addresses 'abnormal events' ..... Oct. 71
Design a safe, in-compliance relief valve ..... Oct. 83
Delayed coking in the CIS ..... Oct. 132-B
Write an offer too good to refuse ..... Nov. 147
Installing training system provides pattern for global expansion ..... Nov. 154-C
Project practices for success ..... Dec. 43
Document management throughout plant construction ..... Dec. 55
Consider a new contractor selection process for a shutdown alliance .... Dec. 61
Strategy for a successful control system renovation ..... Dec. 65
Multi-skilling and cross training: how to find the right balance ..... Dec. 100-A

MATERIALS HANDLING

Control loading emissions ..... May 61

MIXING

Improve urea reactor efficiency ..... Apr. 137

N

NAPHTHA

What are Western Europe's petrochemical feedstock options? ... Feb. 59
Improve BTX processing economics ... Mar. 69

NAPHTHENIC ACIDS

Gas Processes '98 ..... Apr. 85

NATURAL GASES

Transforming a gas processing plant in Russia ..... Sep. 150-C

NITROGEN AND ITS COMPOUNDS

Gas Processes '98 ..... Apr. 85
Improve urea reactor efficiency ..... Apr. 137

O

OLEFINS

What are Western Europe's petrochemical feedstock options? ... Feb. 59
China's petrochemical industry: optimistic and expanding ..... Mar. 47
China prepares for the 21st century ... Mar. 51
Maximize propylene production ..... Mar. 61
Optimize gas-phase polyethylene ..... Mar. 85
Increase productivity with novel reactor design ..... Mar. 93
Retrofit your ethylene unit: the Chevron experience ..... Mar. 100-O
Gas Processes '98 ..... Apr. 85
Use dry-gas seals on cracked-gas applications ..... Oct. 57

OXIDATION

Improve DMT production ..... Jun. 61

OXYGENATES

Maximize propylene production ..... Mar. 61
Reduce methanol formation in your hydrogen plant ..... Mar. 100-C
Gas Processes '98 ..... Apr. 85
Oxygen's role in alkanolamine degradation ..... Jul. 109

P

PARTIAL OXIDATION

Gas Processes '98 ..... Apr. 85

PIPING

Eliminate impact testing for some piping applications ..... Feb. 113
Thermal insulation and pipe stress .... May 111
Improve FCCU refractory-lined piping design ..... Jul. 69
Influence of piping vibration on pump shaft cracks ..... Aug. 48
Do your flame arrestors provide adequate protection? ..... Oct. 63
Design a safe, in-compliance relief valve ..... Oct. 83
World-class pipe spool fabrication .... Oct. 117

POLYMERIZATION

China prepares for the 21st century ... Mar. 51
Optimize gas-phase polyethylene ..... Mar. 85
Improve bisphenol-A quality ..... Mar. 100-G
Improve DMT production ..... Jun. 61

PRECIPITATION

Gas Processes '98 ..... Apr. 85

PUMPS

Spend less time on alignment ..... Jan. 75
Improve pump load evaluation ..... Apr. 65
Improve valve and pump sizing ..... Jul. 53
Influence of piping vibration on pump shaft cracks ..... Aug. 48

R

REFORMING

Gas Processes '98 ..... Apr. 85

REFRIGERATION

Gas Processes '98 ..... Apr. 85

RESIDUES

Gas Processes '98 ..... Apr. 85

ROTATING EQUIPMENT

Improve emission monitoring ..... Jan. 79
Retrofit your ethylene unit: the Chevron experience ..... Mar. 100-O
Select the right high-temperature wire and cable ..... May 114
Use dry-gas seals on cracked-gas applications ..... Oct. 57
Optimize styrene distillation ..... Dec. 85

S

SALTS

Oxygen's role in alkanolamine degradation ..... Jul. 109

SCHEDULING

Modular project constructed in Southeast Asia ..... Mar. 55

SOFTWARE

Why a simulation system doesn't match the plant ..... Mar. 102
Online optimization: what have we learned? ..... Jun. 55
Online soft analyzers benefit refining ..... Jun. 105
Make a program to aid gas turbine selection ..... Jul. 59
Understand object-oriented technology ..... Aug. 45

STACKS

Gas Processes '98 ..... Apr. 85

SULFUR

Gas Processes '98 ..... Apr. 85

Transforming a gas processing plant in Russia ..... Sep. 150-C

SULFURIC ACID

Gas Processes '98 ..... Apr. 85

T

THERMODYNAMICS

Gas Processes '98 ..... Apr. 85

TRAINING

Installing training system provides pattern for global expansion ..... Nov. 154-C

Multi-skilling and cross training: how to find the right balance ..... Dec. 100-A

TREATING

Gas Processes '98 ..... Apr. 85

Emerging microbial control issues in cooling water systems ..... May 91

Minimize wastewater contamination ... Jun. 91

Remove heat stable salts for better amine plant performance ..... Aug. 63

TURBINES

Operating cost analysis aids gas turbine selection ..... Feb. 73

Gas Processes '98 ..... Apr. 85

Make a program to aid gas turbine selection ..... Jul. 59

U

UTILITIES

Boiler circulation calculations ..... Jan. 101

Dynamic simulation for IGCC process and control design ..... Jan. 107

Gas Processes '98 ..... Apr. 85

Emerging microbial control issues in cooling water systems ..... May 91

Minimize wastewater contamination ..... Jun. 91

Control cyanides at source ..... Jul. 85

Straight facts on deregulation ..... Jul. 116-C

Hydrogen and utility supply optimization ..... Sep. 143

V

VALVES

Improve emission monitoring ..... Jan. 79

Eliminate piping impact testing for some applications ..... Feb. 113

Improve valve and pump sizing ..... Jul. 53

Design a safe, in-compliance relief valve ..... Oct. 83

World-class pipe spool fabrication .... Oct. 117

Protect vessels from overpressure .... Dec. 77

VESSELS

Boiler circulation calculations ..... Jan. 101

FCCU main fractionator revamp for CARB gasoline production ..... Feb. 44

Revamping crude units ..... Feb. 51

Increase productivity with novel reactor design ..... Mar. 93

Gas Processes '98 ..... Apr. 85

Improve urea reactor efficiency ..... Apr. 137

Improve tank inspections ..... May 79

Heat-flux imbalances in fired heaters cause operating problems ..... May 103

Minimize wastewater contamination ... Jun. 91

Reduce acid usage on alkylation unit .. Jul. 101

Oxygen's role in alkanolamine degradation ..... Jul. 109

High-capacity distillation ..... Aug. 53

Do your flame arrestors provide adequate protection? ..... Oct. 63

Revise aboveground storage tank inspections ..... Oct. 105

Sensitivity analysis is key to successful DC_5 simulation ..... Oct. 124

Protect vessels from overpressure .... Dec. 77

W

WASTEWATER

Minimize wastewater contamination ..... Jun. 91
